

SUMMARY

Enterprise AI Brain Specialist and founder of LCGIS. I train and evaluate frontier LLMs (RLHF, red-teaming, rubric design, fact-checking) and help small and mid-sized businesses adopt AI foundation-first: judgment, then systems, then tools. Background in biochemistry, sales leadership, and team onboarding.

CORE SKILLS

- **AI training:** RLHF, preference ranking, adversarial red-teaming, refusal/logic auditing, rubric architecture, fact-checking
- **AI/ML:** LangChain, TensorFlow, PyTorch, Hugging Face, OpenAI API, Generative AI
- **Programming:** Python, SQL, REST APIs, Git, Jupyter, Pandas, NumPy
- **Systems:** SOPs, onboarding frameworks, process automation, AI ethics and data privacy
- **Scientific:** Biochemistry, chemistry, research design, lab protocols

EDUCATION

AI & Machine Learning Certificate

Columbia Engineering | Jun - Dec 2024

B.S. Biochemistry

Rutgers University | 2016 - 2022

CERTIFICATIONS

- Claude 101 (Anthropic)
- AI Fluency: Framework & Foundations (Anthropic)
- Vector Marketing President's Club
- Leadership Academy Graduate

La Raven Gordon

ENTERPRISE AI BRAIN SPECIALIST | FOUNDER, LCGIS

(848) 269-7402 | laraven.gordon@gmail.com

PROFESSIONAL EXPERIENCE

Enterprise AI Brain Specialist

Self-Employed, Remote | Dec 2023 - Present

- Train and evaluate frontier LLMs across 28+ confidential enterprise and lab projects: RLHF pipelines, preference ranking, adversarial red-teaming, refusal/logic auditing, and rubric design
- Trained models for scientific domains (biochemistry, chemistry), improving domain knowledge by 40% through validation frameworks
- Advise on compliance and ethics: copyright, data privacy, and regulatory exposure in AI-generated content
- Work under NDA; project names withheld

Founder, SMB & Individual AI Implementation Specialist

LCGIS (LC Gordon Intelligent Systems), Remote | Jun 2021 - Present

- Created the Three Brains framework (human judgment, organizational systems, AI tools) and guide clients through readiness assessment, discovery, and integration
- Drive adoption across analytics, customer service, and internal automation; refer out when AI is not the right fit
- Publish the AI Brain Clone newsletter on Substack

Field Sales Manager and Consultant

Vector Marketing, Essex County, NJ | Oct 2020 - Present

- Led and coached 50+ representatives; hired, trained, and developed sales teams (Assistant Manager Jan 2021 - May 2022; Branch Manager Apr - Oct 2022)
- Built an onboarding framework that trained 300 new hires in 3 days; implemented AI customer service and analytics
- Continue as Event Sales Specialist and consultant on an as-needed basis

Laboratory Assistant

Rutgers University-New Brunswick | Sep 2023 - Feb 2024

- Conducted nutritional and mineral analyses; maintained lab and greenhouse safety standards

Tutor

The Princeton Review | Nov 2022 - Nov 2023

- Assessed learning gaps and built structured improvement plans

Course Content Creator

Rutgers University-New Brunswick | Sep 2020 - Feb 2021

- Designed online course content for complex scientific topics

SELECTED PROJECTS

- **Relocation Insights Application:** Conversational AI built with LangChain and Google Gen AI; 95% user satisfaction, real-time multi-API data. [GitHub](#)
- **Olympic Swimming Analysis:** 100+ years of Olympic data with forecasting and statistical modeling (Python, Pandas, Prophet). [GitHub](#)
- **Banking Interface System:** Secure transaction system with error handling and conversational flows. [GitHub](#)
- **Obesity Classification System:** ML model analyzing health factors. [GitHub](#)
- **Indigenous Vegetables Research:** Nutritional analysis, data pipelines, and educational materials (Rutgers). [View](#)

ACHIEVEMENTS

- Vector Marketing President's Club inductee
- Nominee, 2018 Student Employee of the Year (top 60 of 12,500 student employees), Rutgers
- Joyce Family Scholarship
- Research: Catnip Oils (2019), Environmental Impact (2018), Indigenous Vegetables (2022), Nutritional Analysis (2024)
